TRADING L.L.C.

Standing on Nature's Best!

COMPANY PROFILE

Silver Cube Timber Trading LLC entered in to the new world of flooring on year 2014. We opened up an office in the business district of the city - Business Bay and started its operations and marketing in Dubai and whole UAE since then. We are the Sole Distributor of Wood Star (India) Pvt. Ltd. products which mainly operates in India and Greater Asia.

Wood Star (India) Pvt. Ltd. is one of the largest manufacturers of Natural Teak Wood, Solid & Engineered Flooring in Asia. It is an environmentally conscious company located near Sanand (Ahmedabad District) in Gujarat (India) with leading technology that produces 2, 00, 000 Mtr² per annum. The company has bulk stock of seasoned Natural Plantation Teak Wood Imported from Africa of approximately 8000 CBM and other species like Burma Teak, African Teak, Sapele, Mahogany, Iroko and American species like Walnut, White Oak, Hickory, Hard Maple and European species like Oak and Ash.

Wood Star offers an assortment of high quality and environmentally friendly natural wood floors for private, public and commercial usage, this in combination of an outstanding services offered to customers and distributors.

The high quality of the product is our ultimate goal, not just in our product range but in everything that we do. Wood Star carries a guarantee of exceptional quality, value and extraordinary services together with Silver Cube Timber Trading that offers fair and best price of the Natural Wooden Flooring and Timber in the UAE market.

Infrastructure and Machineries

PRODUCTS

Natural Solid Wooden Flooring

Natural Solid Wood is best used in living room, bedroom, hallway and dining room areas. Solid wood has an excellent durability that can last for many decades. We offer wood thickness of 19mm, with a width option of 95mm, 120mm and 145mm in a Random Length.

BURMA TEAK

It is considered as one of the best wood flooring material with extraordinary high resistance to humidity, decay, bacteria & termite attack.

AFRICAN TEAK

It is from big round logs and timber that has strong corrosion resistance in Indoor or outdoor conditions.

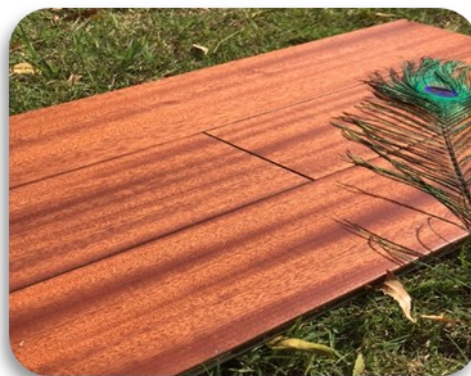

WHITE OAK

Oak wood flooring is known for its sturdiness, long life and resistance to wear. White Oak is also easy to stain.

WALNUT

Walnut is a strong, hard and durable type of wood. It finishes well and has rich colors.

SAPELE

Sapele has a beautiful African heartwood. Sapele is notable for being highly resistant from parasites attack.

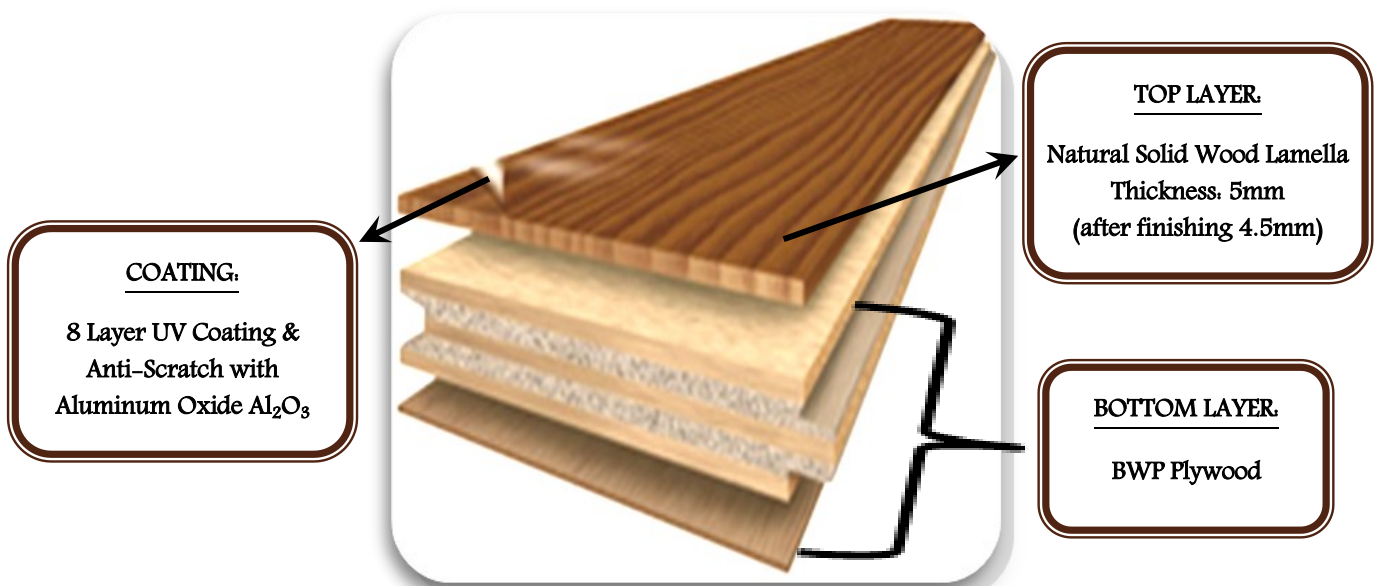

PRODUCTS

Natural Engineered Flooring

Consists of 2 or more layers. The multiple layers are bonded together under pressure which may consist of several layers of plywood. It can be installed in a wide range of interiors, on, below or above grade that is why it's a practical choice due to its versatility and suitability. Engineered wood floors can be more resistant to moisture and tend to be more stable.

We offer wood thickness of 15mm, with a width option of 95mm, 115mm and 145mm in a Random Length. We generally offer 5mm (after finishing 4.5mm) Top layer and Plywood (BWP) as the bottom layer.

We produce all Engineered Floors with Top Layer of BURMA TEAK, AFRICAN TEAK, SAPELE, WALNUT and WHITE OAK.

PRODUCTS

Natural Outdoor Decking

Deck is a flat surface capable of supporting weight, similar to a floor, but typically constructed outdoors, often elevated from the ground. Decking is available in one side Plain and One side Ribbed or Both Sides Plain. We offer deck thickness of 19mm, with a width option of 95mm, 120mm and 145mm in a Random Length.

Decking Accessories:

• **Hardwood Runners Size: 45mm x 35mm**

• **Clips: SS 304 Clips with 2 Screws**
